RE: New Castle County Vocational Technical School District

Dear Ms. Miller:

We represent the New Castle County Vocational Technical School District. The School and the teacher are permitting the student to exercise his right to opt out of the Pledge by remaining seated. No effort is being made to persuade students to refrain from exercising their respective right to opt out, and no discipline has been, or will be, administered for opting out of the Pledge.

Sincerely,

David H. Williams

DHW/jam
